Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Attorney proposed claim amendments directed to differentiating the claimed invention from the Klaus reference. Examiner indicated that proposed amendments limiting/focusing the claims on facilitating reinsurance negotiations between a single cedent and multiple or a plurality of assumers appear to distinguish the claimed invention from the applied prior art (Klaus) which facilitates the reinsurance process involving a single assumer negotiating with multiple cedents.
